## Report:

Cleanliness is a mindset - a positive habit that keeps the body, mind and environment happy, healthy, simple, neat and delightful. On July 24 2023. Unit I of NSS of IIS (Deemed to be University) proceeded to government school - Rajkiya Uchh Madhmik Vidhyalaya located in thadi market. Maintaining cleanliness in an institution sets a good example to students about conduct and motivates towards cleanliness as a part of the lifestyle. It encourages learners to take pride in their university or school, which makes them less likely to drop litter and as such they will potentially make a bigger effort to maintain a clean environment.

The volunteers enthusiastically worked for 40 minutes to clean the patches in the garden of the school. Teamwork was visible among the volunteers. They used some of the equipment such as a spade and broom to chop the bushes from the lawn. After cutting them, they collected it in a dustbin. 23 volunteers participated to make the activity successful and meaningful.

The students were divided into two groups, group A went to the garden to conduct a cleanliness drive. Under swachh Bharat Abhiyan, which has become a 'Jan Andolan' as Citizens have turned out in large numbers and pledged for a neat and cleaner India. Taking the broom to sweep the streets, cleaning up the garbage, focussing on sanitation and maintaining a hygienic environment have become a practice. People have started to take part and are helping spread the message of 'Cleanliness is next to Godliness. Taking this initiative further, The students helped in cleaning the garden by clearing out the weeds and picking up the trash, clearing the playing compound for the students.

Report:

NSS at IIS (Deemed to be University) organised an orientation session for upcoming volunteers of the university. It was collected in the AV Hall from 09:30 am onwards.

The program started with a presentation given by Dr Sharad Rathore and Dr Archana Kumari- in which she explained the meaning, significance and campaigns of NSS.

Followed by the presentation, Dr Anju took over the stage and talked about the opportunities through NSS. Some ice-breaking team games provided the new members with an opportunity to get to know their fellow volunteers and come out of their comfort zone.

Volunteers of each unit shared experiences from their journey of community service and their time at NSS, which sparked the new members' enthusiasm to dedicate themselves to the service of the community.

The event concluded with a vote of thanks to the university dignitaries, volunteers and the program officers.

## Report:

On August 14, 2023 NSS unit of IISU (deemed to be university) organised a session with renowned organisation 'Brahma kumaris' focusing on "Experiencing freedom and lightness amidst the chaos" in Av hall.

The speaker of the session was Mukul Pal Chowdhary. He is a Mechanical Engineer, an Instructional Designer and has a doctoral degree in Psychology from Savitribai Phule Pune University. Sir Mukul is a meditation student, practicing Rajyog meditation with the Brahma Kumaris since 32 years. His mission is to assist people in personal reengineering and connect themselves with the Supreme Almighty. His passion is to develop learning games and experiment with yogic meditation. The other two prominent figures from Brahma kumaris there in the session were sister Ekta and sister Anmol.

The speaker began by elucidating the notion of internal freedom, emphasizing its significance in leading a fulfilling life. Internal freedom was described as the awareness of one's inner consciousness, leading to a state of poorna swaraj (complete self-mastery) and self-control. Participants were encouraged to explore their purpose, practice goal-directed behavior, and engage in positive self-talk to attain internal freedom. The speaker also discussed how an individual's vengeful attitude could negatively impact an entire team, emphasizing the importance of ethical behavior from childhood to prevent such outcomes.

## Pathways to Achieving Freedom

The speaker elaborated on practical strategies to achieve internal freedom and control over one's actions:

**Golden Hour Principle:** Participants were introduced to the concept of dedicating a specific time each day (1-2 hours) for introspection and future planning. **Maintaining a To-Do List:** Creating and maintaining a to-do list helps individuals organize their tasks and stay focused on their objectives.

**Practice of Affirmations:** Participants were encouraged to practice affirmations during various daily activities such as walking, breathing, eating, and sleeping. Towards the end of the workshop, participants were taught how to create personal boundaries for maintaining peace and freedom. The concept of constructing three metaphorical walls around oneself, preventing unwanted influences from penetrating, was shared as a method to ensure a balanced and focused life.

The speaker's emphasis on ethical behavior and the importance of introspection from an early age resonated strongly with the participants. The workshop was undoubtedly a meaningful step towards empowering individuals to embrace internal freedom and lead a purpose-driven life.

## Report:

On the morning of August 21, 2023, 27 girls boarded the bus to visit Government Senior Secondary School, Thadi Market, accompanied by Professor Dimple Dalal. Upon our arrival, the students were divided into two groups. The first group conducted a read-aloud competition in classes 1-7. This engaging activity involved students taking turns reading aloud from a selected passage, story, or book in front of an audience. The competition aimed to enhance students' reading skills, pronunciation, confidence, and expressive abilities. Prizes were awarded to the best speakers.

The second group organized the "Writing for Social Change" activity for classes 7-10. This initiative encouraged students to employ their writing skills to address and raise awareness about significant social issues. They tackled subjects such as road conditions, sanitation problems, and the environment. Students brainstormed ideas on how to address these issues through their writing and were given the freedom to choose a format that suited their creative style. Subsequently, they were given the opportunity to present their written pieces. Prizes were given to students with the most outstanding write-ups.

Report:

The students of NSS unit -1 visited the Umang School for specially abled children, a total of 49 students visited the school along with a teacher in charge. The central focus of the visit was to acquaint the volunteers with the working and the different programs and classes initiated for the students of the Umang school.

There, 2 groups of volunteers were made and were taken to explore the school and its working along with one of the incharge from the school, she showcased different classrooms and the volunteers also got a chance to meet with the vibrant students, the overall atmosphere of the school was lovely and cheerful with decorations all around the school. The volunteers were able to understand the overall mechanism of the school, ranging from physiotherapy classes to cookery classes, yoga and sports classes, and learning classes as well. For children with behavioural, vision and cognitive issues, there were separate therapy classes, there was also a creativity cell where the children learned sewing and art and crafts and later on these materials were also being sold at the school, the vibrant hues, cheerful colours and artistic mind of the students was well propelled in their work.

After having a visit all around the campus, an interactive session took place with one of the head teachers of the school, where she cleared all our doubts and the volunteers gave their piece of advice and ideas that they would implement, nukkad natak, rallies, performances were also discussed for the upcoming programmes associated with the Umang school.

Every year a theme of learning is created for the students of Umang School, this year, "source to the home" was their theme, wherein they will learn about electricity sources, food sources and water sources and how do they reach the homes.

There is also a volunteering programme under the school, where anyone can register.

The volunteers were able to take back fresh memories and were able to learn that happiness lies within, and that we should be grateful of all the opportunities that come forth for us, and gladly accept all that is happening to us, and that living in the present moment is more important than dwelling on your disabilities and worrying for the future endeavours to come.

The session alongside being informative was also a session where the volunteers were able to understand the basic necessary values to lead a happy and healthy life, without being extraordinary.

Report:

On 9 October' 23, the volunteers of NSS Unit-1 were headed to the Government Upper Primary School, Sumernagar, Jaipur. This visit was organised in light of the “Meri Mati Mera Desh” campaign under the Amrit Kalash Yatra.

This campaign, launched by the government, puts emphasis on the sacrifices of our freedom fighters and martyrs by collecting rice and soil from various parts of the country and carrying them in a rally procession to Delhi. Thus, the volunteers were asked to bring Kalash (earthen pot) and some rice for this activity. Upon their arrival at the school, the school teachers, along with the volunteers, started pouring the rice and soil into the kalash. Afterwards, volunteers and the students carried these kalash in a rally while shouting slogans of ‘Vande Matram’ and ‘Bharat Mata ki Jai’. This invoked a sense of patriotism in the hearts of everyone present there.

Later, the rice that was poured into the kalash was distributed among the poor people. NSS Unit-1 volunteers were immensely active and enthusiastic during this activity. They interacted with the students and informed them about the campaign. There was a common feeling of unity and respect for our freedom fighters in the hearts of all. In a nutshell, this visit was very informative and inspiring.

## Report:

The Unit I and Unit IV of NSS wing of The IIS University organized a one day workshop on Art on handcrafts on 16th October 2023 in the ojas hall. The resource person was Ms. Dimple Sharma from the Department of Fine Arts.

The students eagerly participated in a captivating workshop that revolved around the exquisite art of "lippan," also known as Mud and Mirror Work. This traditional mural craft hails from the vibrant region of Kutch in Gujarat, India, and holds deep cultural significance, especially during the festive Navratra season.

Lippan art is a testament to the rich heritage of this region. It involves the use of locally sourced materials, such as a mixture of clay and camel dung, which not only contributes to the aesthetics but also helps in keeping the interiors of houses cool. The students delved into the world of lippan art, gaining a profound understanding of its intricate details and techniques.

Under the expert guidance of skilled instructors, they were able to explore the art's vibrant colors, patterns, and the cultural stories it conveyed. This hands-on experience not only provided the students with a creative outlet but also instilled in them a deeper appreciation for the customs and traditions associated with the Navratra season.

## Report:

A four-day workshop took place from October 27th to October 31st, 2023, as part of Literacy Week. The volunteers involved in this initiative collaborated with Umang, a special school catering to differently-abled children. The volunteers engaged in various activities aimed at promoting literacy and empowerment among the students. Here is an overview of the activities conducted on each day:

On the first day of the workshop, volunteers were divided into groups. Their primary task was to teach the students how to write their names and their school's name in both English and Hindi. This activity aimed at developing the students' basic writing skills and fostering a sense of identity through literacy.

On the second day, volunteers assisted the students in reading their English books. Additionally, they helped the students understand and explain what they had learned from a specific paragraph in the book. This activity was designed to enhance the students' reading comprehension and communication skills.

Day 3 was dedicated to a creative project. Volunteers and students collaborated to design diaries. These diaries were intended to be products that Umang could sell, emphasizing the importance of students' contributions and instilling a sense of empowerment. This activity encouraged creativity and practical skills among the students.

On the final day of the workshop, volunteers took on two different roles. Firstly, they assisted students in eating their tiffin, emphasizing the importance of nutrition and well-being. Secondly, they engaged with teachers and students in drawing activities, promoting creativity and fine motor skills. Additionally, the volunteers worked with the students to create Diwali cards, celebrating the upcoming festival and fostering a sense of togetherness and cultural awareness.

Overall, the four-day workshop at Umang was a meaningful initiative to promote literacy, creativity, and empowerment among specially-abled students. It provided an opportunity for volunteers to make a positive impact in the lives of these children while fostering a sense of community and inclusivity.

Report:

The NSS units of IIS (Deemed to be University) arranged a guest lecture titled 'lifestyle and health' on January 29, 2024. The lecture highlighted the positive impact of a healthy lifestyle on overall well-being, emphasizing the importance of nutritious food for physical health and mental well-being. The speaker likely stressed the significant role of the gut system in maintaining good health, as it affects both physical and mental aspects of life. A balanced gut contributes to a healthy mind, influencing mood, cognitive function, and stress levels. The

lecture underscored the importance of consuming nutrient-rich foods, not just for physical health but also for external appearance. Internal nourishment contributes to enhanced energy levels, which often reflects in our external appearance, highlighting the holistic approach to nutrition and well-being. The speaker discussed the recommended calorie intake and expenditure, cautioning against the health risks associated with consuming high-calorie foods like burgers, which can lead to increased cholesterol levels and heart disease risk. Additionally, the myth that being slim equates to being fit was debunked during the lecture.

Report:

The NSS units of IIS (Deemed to be University) hosted a webinar on February 12, 2024, as part of the Vegan Outreach, Jaipur Chapter. The event featured

Ms. Nija Dhillon, who spoke virtually during the Monday Activity session on the topics of food and plant health.

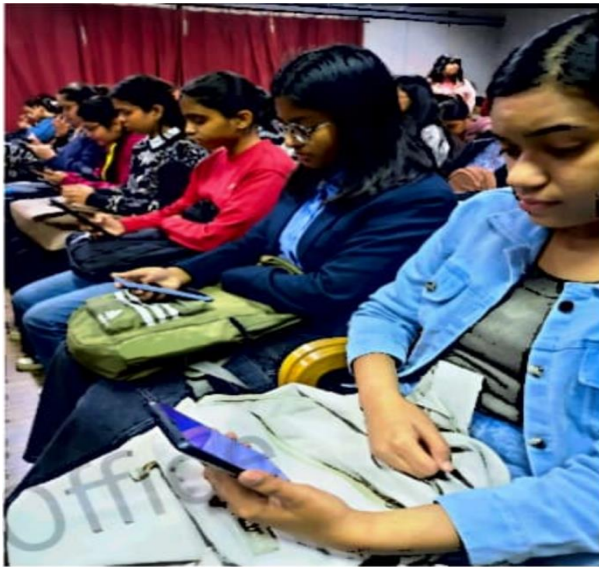

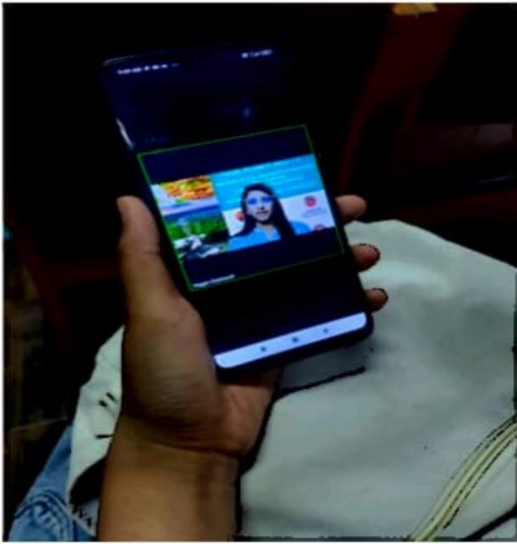

Ms. Dhillon used a PowerPoint presentation to explain the significant impact of our daily food choices on our personal health and the broader ecosystem. She highlighted critical issues such as the mass production of dairy products, the practices of animal agriculture, factory farming, deforestation, and the resulting wildlife extinction.

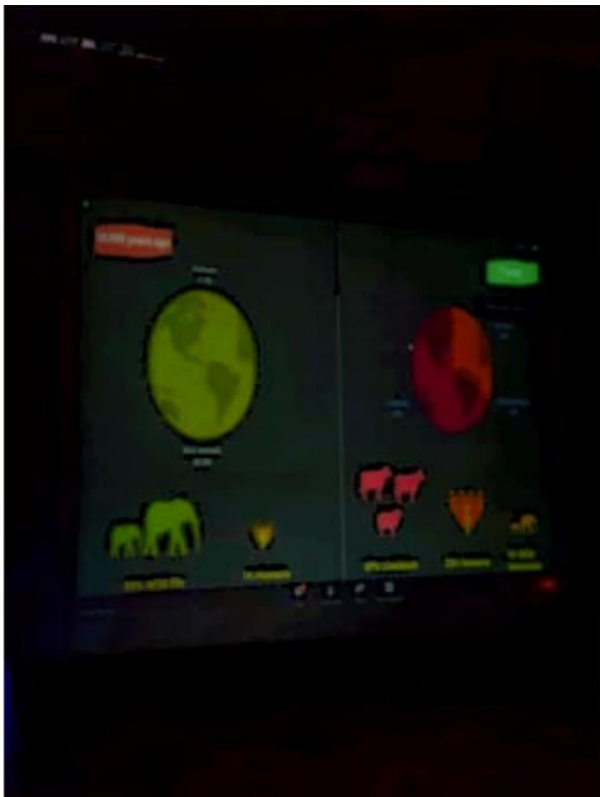

The primary goal of the webinar was to introduce participants to the concept of veganism, emphasizing its numerous benefits. These benefits include reducing zoonotic diseases, preventing animal cruelty, combatting speciesism, and mitigating other inhumane practices. Additionally, Ms. Dhillon discussed the environmental advantages of a vegan diet, such as lower greenhouse gas emissions, reduced water usage, and decreased pollution levels.

Moreover, she provided practical tips on transitioning to a vegan lifestyle, suggesting plant-based alternatives and highlighting the nutritional benefits of vegan foods. The session also touched on the ethical considerations of food choices, encouraging participants to reflect on the moral implications of their consumption habits.

The webinar was highly informative, raising awareness about important issues and encouraging attendees to consider the advantages of adopting a vegan lifestyle for both personal and environmental well-being. It inspired many to think critically about their diet and its broader impact, fostering a greater sense of responsibility towards health, animals, and the planet.

### Report:

NSS Unit-1 volunteers created the best out of waste by recycling used plastic bottles and promoting sustainable development. On February 19, 2024, they took part in a significant environmental conservation action. All the volunteers were asked to bring waste plastic bottles from their households for this activity. Then they gathered together in an attempt to make something useful out of it. The unit leaders served as resource people and split up into two groups. The former group leaders then showed the volunteers a step by step process of converting the bottle into a plant pot or container and the latter group leaders demonstrated how to make a bird feeder. In this method, they effectively transformed the plastic bottles into a useful item. During the summer, one might fill the bird feeder with water, millets, or sunflower seeds and hang it from trees. Additionally, the container can be used to grow a plant or store items. Volunteers from NSS Unit-1 promptly contributed to this worthy cause by transforming plastic bottles into useful objects. They all worked together and helped one another, which developed a sense of harmony and togetherness. The volunteers became more conscious of sustainable development and the importance of our environmental contributions as a result of this activity.

Report:

“Don’t be dismayed at goodbyes. A farewell is necessary before you can meet again. And meeting again, after moments or lifetimes, is certain for those who are friends.” – Richard Bach. NSS offers students a platform where they learn skills that are essential to connect with the community so that they become responsible citizens. The formal processes are uniform for all the students but there are underlying emotions, moments of triumph and despair that volunteers experience at individual levels throughout their journey. But like every journey

,this one too came to an end officially for the final year students . All the units of NSS organised a heartwarming farewell for their seniors . The event started with welcoming all the seniors with tikka moli and giving them badges at the entry. The juniors formally welcomed the outgoing batch post which the fun ride began with a game called 'pyramid with glasses' where the volunteers were paired up. The pairs were competing against each other to make pyramids speedily .All those who finished it in lesser time as compared to other pairs were all given prizes .There were two to three rounds of the game . The volunteers were cheering all the participants of the game. This was followed by an entertaining dance performance by the volunteers. The outgoing batch enjoyed a musical treat by Dhvani band. All those senior volunteers who has performed exceptionally in their NSS tenure received sashes from the programme coordinators. There was a beautiful video shared by the juniors offering glimpses of all the time volunteers has spent working for NSS.The seniors were definitely on an emotional roller coaster ride. After this , the seniors shared their experiences of the three year NSS journey which was an account on how NSS transformed them as individuals. Finally all the programme officers blessed the students and told them to carry the values of NSS wherever they go. The event ended with capturing all the beautiful moments .

To increase the awareness about puberty among teenage girls, NSS unit II, IIS (deemed to be University), Jaipur in collaboration with Unicharm, India organised a guest lecture on the topic “menarche”. The resource person for the lecture was Ms. Nitya Choudhary, CSR Manager, Unicharm, Rajasthan who talked about primary and secondary sexual changes that are a result of puberty. It is essential to enlighten girls about the reproductive changes that happen in the body once the menstrual cycle starts because this is a topic which is not discussed at homes and there are a lot of myths associated with menstrual cycle. It is required to debunk such myths and encourage girls to be open about their physical changes. Ms Choudhary simplified the topic so that the students understand the physical and psychological changes during menarche .She properly guided the students that how can they deal with all such changes. The session was truly enlightening and it motivated the young girls to express their curiosity so that they have the right kind of knowledge and take reproductive health seriously. ### **Report :**

The NSS unit of our institution organized a event aimed at nurturing environmental consciousness among underprivileged students from government schools. The activity commenced with a fervent commitment to educating and inspiring approximately 100 students about the critical importance of safeguarding our environment. The session featured insightful talks and interactive discussions led by enthusiastic NSS volunteers.

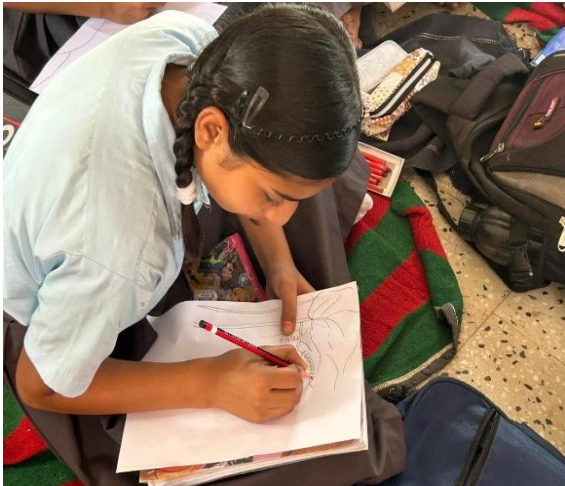

The primary objective of the activity was to sensitize the young minds to the pressing environmental challenges and encourage them to become responsible stewards of our planet. NSS volunteers, well-versed in environmental issues, shared knowledge on topics such as pollution, waste management, and biodiversity conservation.

Following the informative sessions, a drawing competition on the theme of "Environment" was organized. The competition not only aimed to ignite the creative spark among the students but also provided a platform for them to visually articulate their understanding of environmental concerns.

In conclusion, the NSS activity, which combined education on environmental importance and a creative drawing competition, left an indelible mark on the young minds of the government school students. It served as a beacon of hope, illuminating the path towards a greener and more sustainable future, one where every individual plays a role in preserving the beauty and vitality of our planet.

## **Report on NSS Orientation**

**Name of the Activity:** NSS orientation

**Day & date:** Tuesday 1, August 2023

**Venue:** Infirmary, IIS (deemed to be University), Jaipur

The orientation for the first semester students was organized on behalf of NSS, IIS (deemed to be University), Jaipur on 1 August 2023. The event started with the NSS song (“Uthesamajkeliye”) vocalized by the NSS volunteers. It ignited a sense of servitude among everyone sitting there. The song was followed by a captivating presentation on NSS given by Dr. Archana Kumari and Dr. Anju Singh, Programme Officers, NSS, IIS (deemed to be University), Jaipur. Dr. Archana discussed about the objectives, structure and benefits of NSS for the students and how it can have an overall impact on their personalities. Dr. Anju Singh threw light on the activities associated with different projects undertaken by NSS. The students could understand what NSS was all about as they were exposed to the right amount of visual and verbal information.

Professor Sharad Rathore, Programme Officer, NSS, IIS (deemed to be University), Jaipur motivated students to be a part of NSS with all the commitment and zeal they have. NSS is not only about engaging in community service but it is also a platform that can help students hone their skills. She also laid emphasis on the fact that every little contribution that we make towards the community can have the possibility to trigger the biggest transformation in society.

The senior volunteers shared their experiences of being a part of NSS. According to them, NSS has given them confidence, helped them build their leadership abilities and sensitized them to act towards community development. They talked about how they discovered their enormous potential through NSS that demanded commitment which pushed to work harder. The experiences of the volunteers effectively conveyed the impact of NSS on youth.

Overall the orientation was informative and convincing with a lot of students expressing their desire to be a part of NSS. The orientation ended with the quintessential ‘NSS clap’ that expressed solidarity.

The activity was aimed at promoting creativity among students while instilling the values of love and unity associated with the festival of Rakshabandhan.

The objectives of the activity were:

- To provide a platform for students to showcase their creativity
- To contribute to the celebration of Rakshabandhan in a meaningful way

The students took part in the following activities:

**Day & date:** 25<sup>th</sup> September 2023

**Venue:** Pinjrapol Gaushala, Sanganer, Jaipur

**Number of NSS Volunteers participated:** 19

### **Report :**

The main objective of this activity was to promote cleanliness and hygiene at the gaushala, create awareness about the importance of maintaining a clean environment, and explore the research center named Sunrise.

NSS volunteers gathered at Pinjrapol Gaushala and engaged in various cleanliness activities such as cleaning the premises, picking up litter, and ensuring the proper disposal of waste. The gaushala staff and some local volunteers also joined in to support the cause.

After the cleanliness drive, the staff of the gaushala guided the volunteers to the area inside the gaushala where medicinal herbs were grown and explained their significance. The volunteers also got to see the types of natural manure like vermicompost being produced on-site.

The visit also included a tour of the Sunrise Research Center within the gaushala premises. The staff of the gaushala explained the research activities conducted at Sunrise, which focused on the study of medicinal herbs and the development of natural manure techniques to benefit agriculture and farming practices. One remarkable fact about Pinjrapol Gaushala is that it was established 100 years ago, highlighting its long history of serving the community and its dedication to animal welfare and research.

The volunteers were divided into teams for the cleanliness drive and received guidance from the gaushala staff. The visit to the medicinal herb area and the research center was led by knowledgeable staff members who provided valuable insights.

Ending Lines: The session concluded with a discussion on the importance of maintaining cleanliness, conserving medicinal herbs, and adopting sustainable farming practices. Possible future collaborations between NSS and the gaushala for such initiatives were also explored.

## **Report**

### **Dandiya Utsav**

**Title of the event:** Dandiya Utsav

**Date:** 20<sup>th</sup> October 2023

**Venue:** University Backlawns

Navratri is one of the major festivals celebrated across India to mark the victory of good over evil. Owing to regional variations, the significance and expressions related to the festival are also different. 'Dandiya-Raas' is a vibrant dance form from Gujrat which is performed in pairs where the partners face each other and step forward to hit sticks with their partner. This well-coordinated dance is performed to venerate Goddess Durga. Keeping up with the ongoing festive mood, the NSS units of IIS (deemed to be University), Jaipur organised 'Dandiya Utsav' under the aegis of Azadi ka "Amrit Mahotsava". The event was inaugurated by, Prof. T.N. Mathur, Vice-Chancellor, IIS (deemed to be University), Jaipur and Dr. Raakhi Gupta, Registrar, IIS (deemed to be University), Jaipur. To begin with, there was an arti performed to invoke the blessings of Goddess Durga after Prof. Sharad Rathore, Programme Officer, NSS, IIS (deemed to be University), Jaipur welcomed everyone and declared the festive dance event open. The event was organised in the back lawns of the university. To add to the fun and frolic, various stalls were set up for food, tattoo, mehndi, selfie props. The counters were all handled by the NSS volunteers under the guidance of faculty members of NSS. The dance event started at 2:00 pm. For the convenience of the students, the distribution of tickets had started a day before and ticket counter was set on the day of the event as well. The theme for 'dandiya utsav' was ethnic wear which students really pulled the code off by wearing typical 'lehnga-cholis' pairing them with colourful dandiya sticks. The synchronised dance performances by the students was the true depiction of unity and cultural richness India is proud of. The event got over at 4:30 pm and was truly a success.

Ma'am Pallavi pointed out that this is the most dangerous kind of behaviour on the part of women and may serve as a reason of sexual assault. She discussed about the vulnerability of women to sexual assault irrespective of age. She demonstrated the use of some tools that are available on shopping websites as well and must be carried by girls whenever they are going out. The list included items like pepper spray, alarm key chains, self-defence knife, chilli spray etc. that can be kept in bags. After this, members from her team demonstrated certain self-defence techniques that girls should learn in order to be safe. The session concluded with volunteers clearing their doubts about the techniques and sharing their experiences about the workshop.

### Report:

Environmental waste is a huge concern and the battle against it is never - ending .But we all need to make efforts to protect the environment and reduce waste especially the one which is non-biodegradable. With this intention Ayushi Mathur, Ph.D scholar, Department of History demonstrated how one can recycle plastic bottles. A lot of people throw bottles of mineral water,juices , soft drinks and this amounts to a lot of litter but this can be reused by making bird feeders with minimum materials. All one needs is a thread, a knife and items of your choice to decorate .NSS volunteers learnt how to make it and adorned the bird feeders with colours, beads etc. It was an environmental friendly activity.

“Art has been recognised as one of the best mediums to convey messages effectively.” The NSS volunteers truly did justice to this thought by performing nukkad natak for which they had pursued a workshop during the NSS camp. They performed on themes like animal abuse, mental health, addiction to technology and gender discrimination. Through their performance they raised issues that are vital but are being ignored by the society in huge ways.

### **Report :**

On 18<sup>th</sup> March 2024, a remarkable alumni of the IIS (deemed to be University),Jaipur interacted with students on 'Art of Wellness' which is an approach to allow individuals to utilise their efficiency to the fullest in order to perform well in the life. According to Ms Prateeka , wellness doesn't comprise of healthy body only ,we all need to have a decluttered and sorted mind in order to stay focussed towards our life goals. The speaker works in corporate sector and her team has designed an application called felicity that has a team of well-trained psychologists who address mental health issues of the people. Their app is meant for all those who wish to seek help in regard to psychological issues. The session started with an interaction where in volunteers shared how mental health issues are not as seriously as physical health issues and as students they face certain pressures which lead to an overload of emotions. After the interesting discussion,Ms .Prateeka shared the motivations behind felicity app and she acquainted the students with the problems that people of post-industrial era are facing .All the engagements

come with enormous pressure and people have meltdowns because they can't share their emotional baggage . When such problems are addressed and resolved workers tend to more productive for the organisation. She asked all the volunteers to download the app and guided them about it can be used. She also gave an assurance that the app keeps all the information confidential there should not be any inhibition while taking support.

The speaker really motivated the volunteers to share their problems with anyone who they think can support them without judgement and they should also be sensitive towards others problems . This will establish a community of individuals who emotionally strong .

“Don’t be dismayed at goodbyes. A farewell is necessary before you can meet again. And meeting again, after moments or lifetimes, is certain for those who are friends.” – Richard Bach. NSS offers students a platform where they learn skills that are essential to connect with the community so that they become responsible citizens. The formal processes are uniform for all the students but there are underlying emotions, moments of triumph and despair that volunteers experience at individual levels throughout their journey. But like every journey, this one too came to an end officially for the final year students. All the units of NSS organised a heartwarming farewell for their seniors. The event started with welcoming all the seniors with tikka moli and giving them badges at the entry. The juniors formally welcomed the outgoing batch post which the fun ride began with a game called ‘pyramid with glasses’ where the volunteers were paired up. The pairs were competing against each other to make pyramids speedily. All those who finished it in lesser time as compared to other pairs were all given prizes. There were two to three rounds of the game. The volunteers were cheering all the participants of the game. This was followed by an entertaining dance performance by the volunteers. The outgoing batch enjoyed a musical treat by Dhvani band. All those senior volunteers who have performed exceptionally in their NSS tenure received sashes from the programme coordinators. There was a beautiful video shared by the juniors offering glimpses of all the time volunteers have spent working for NSS. The seniors were definitely on an emotional roller coaster ride. After this, the seniors shared their experiences of the three year NSS journey which was an account on how NSS transformed them as individuals. Finally all the programme officers blessed the students and told them to carry the values of NSS wherever they go. The event ended with capturing all the beautiful moments.

### **Report:**

The Unit III of the NSS unit of IIS (Deemed to be University) Jaipur, organized a BOOKMARK MAKING activity on 24<sup>th</sup> July, 2023. They were taught the importance of a bookmark and that it is used to help you remember where you were up to while reading a book. They were given different types of sheets and ice cream sticks by the volunteers to showcase their inner craft. Various thoughts were written on the board to decorate their bookmarks with. Later, they were given those bookmarks to put in the books they are currently reading. It was a great opportunity for students to go beyond their regular curriculum, and to interact and learn through such an activity.

The theme of the contest was Ganesh Chaturthi and the motive behind the activity was to build team spirit and encourage all the volunteers to unleash their creative side and spread festive vibes in the university. We gifted the exemplary art pieces made by our sub groups to Honorable Chancellor Ashok Gupta Sir, Prof. T.N Mathur Sir and Registrar Dr. Raakhi Gupta. The NSS units of IIS (Deemed to be University) organized a visit to Pinjrapol Gaushala for the Monday activity on 25<sup>th</sup> September, 2023. The volunteers helped in cleaning the area around the Gaushala and also visited the Manufacturing unit of Medicinal plants. It was a learning experience and the volunteers got to know so many new things about organic farming, vermi composting and manure production. We also had a tour in the industry where many natural items were made of high nutritional value and health benefits like organic green tea, jamun and ashwagandha juice using the by-products. ### **Report:**

On Monday, 9th October, Unit 3 of the NSS group of IIS (Deemed to be) university organised a Amrit Kalash Yatra in the university campus. The students, both inside and outside the campus, conducted a march past holding the sacred kalash with maati in it and fervently reciting the slogans such as 'itihaas ke panno se aawaaz hai aati, bohot hi anmol hai mere desh ki maati.' It was a culturally enriching event which fostered a sense of "unity in diversity" among the students. It holds deep spiritual significance, instilling inner peace and a connection to our ancient heritage. This will help preserving our rich traditions but also imparts essential moral values, reminding us of our cultural roots.

**Report:**

The NSS units of IIS (Deemed to be University) organised a guest lecture on the topic ‘lifestyle and health’ on the 29th January 2024 for the Monday Activity.

A healthy lifestyle positively impacts our overall well-being. Nutritious food supports physical health, while a healthy lifestyle contributes to mental well-being. The facilitator likely emphasized the crucial role of the gut system in maintaining good health, as it influences both physical and mental aspects of our lives. A balanced gut contributes to a healthy mind, affecting mood, cognitive function, and even stress levels. What we consume plays a pivotal role in our overall vitality. Nutrient-rich foods not only provide essential elements for physical health but also influence our external appearance. A focus on internal nourishment contributes to enhanced energy levels, and this is often reflected in our external appearance, emphasizing the importance of a holistic approach to nutrition and well-being. She explained how many calories should we take and how many calories should burn. She explained that one burger has 375 calories. If we eat one burger it can lead to cholesterol and saturated fat can raise levels of cholesterol in your blood and increase your risk for heart disease. The Facilitator also burst our myth that being slim does not mean that we are fit.

### **Report:**

NSS, or National Service Scheme, is a program in India aimed at developing student's personality through community service. The "claps" and "song" in NSS hold significance as they serve as symbols of unity, camaraderie, and purpose during various activities and events within the program. The claps symbolize encouragement, appreciation, and solidarity among participants, fostering a sense of belonging and teamwork. The NSS song, on the other hand, acts as a rallying anthem, instilling pride, motivation, and a sense of mission among members, reinforcing the values and objectives of the NSS program. Together, these elements contribute to creating a cohesive and empowered community dedicated to serving society and promoting positive change.

The tokens of remembrance and love were gifted to them in the form of bookmarks, bracelets, and pens. Thoughtful titles were presented to the seniors to honor them for their dedication and service in the last three years. ## Report on NSS Orientation

**Name of the Activity:** NSS orientation

**Day & date:** Tuesday 1, August 2023

**Venue:** Infirmary, IIS(deemed to be University),Jaipur

No. of Students: 25

The orientation for the first semester students was organized on behalf of NSS, IIS (deemed to be University), Jaipur on 1 August 2023. The event started with the NSS song (“Uthe samaj ke liye”) vocalized by the NSS volunteers. It ignited a sense of servitude among everyone sitting there. The song was followed by a captivating presentation on NSS given by Dr. Archana Kumari and Dr. Anju Singh, Programme Officers, NSS, IIS (deemed to be University), Jaipur. Dr. Archana discussed about the objectives, structure and benefits of NSS for the students and how it can have an overall impact on their personalities. Dr. Anju Singh threw light on the activities associated with different projects undertaken by NSS. The students could understand what NSS was all about as they were exposed to the right amount of visual and verbal information.

Professor Sharad Rathore, Programme Officer, NSS, IIS (deemed to be University), Jaipur motivated students to be a part of NSS with all the commitment and zeal they have. NSS is not only about engaging in community service but it is also a platform that can help students hone their skills. She also laid emphasis on the fact that every little contribution that we make towards the community can have the possibility to trigger the biggest transformation in society.

The senior volunteers shared their experiences of being a part of NSS. According to them, NSS has given them confidence, helped them build their leadership abilities and sensitized them to act towards community development. They talked about how they discovered their enormous potential through NSS that demanded commitment which pushed them to work harder. The experiences of the volunteers effectively conveyed the impact of NSS on youth.

Overall the orientation was informative and convincing with a lot of students expressing their desire to be a part of NSS. The orientation ended with the quintessential ‘NSS clap’ that expressed solidarity.

The volunteers began assisting the students with their academic subjects. In addition to helping with classwork and homework, the volunteers engaged students in interactive learning activities. This holistic approach not only enhanced the students’ knowledge but also encouraged them to actively participate in the learning process.

Furthermore, the volunteers took the opportunity to educate the children on “Eye Flu”, a disease that is of current prevalence by explaining the causes, symptoms and precautions. Moreover, the volunteers stressed the importance of preventive measures such as regular handwashing and avoiding touching one’s eyes, to minimize the risk of contracting ‘Eye-Flu’.

As the School Visit came to an end, the volunteers bid a fond farewell to the children by wrapping up the memorable session.

The NSS unit of IIS (Deemed to be university) organized a training session on Cardiopulmonary Resuscitation (CPR) which was conducted by trainers from EHCC Hospital. The session emphasized the fundamental skills required to effectively administer CPR i.e. chest compressions and mouth to mouth resuscitation and highlighted its potential life-saving impact. The trainers also insisted on the importance of quick action, stressing that immediate initiation of CPR can significantly improve the chances of survival for individuals experiencing cardiac arrest.

During the practical segment of the training, volunteers were provided with hands-on experience by being given the opportunity to practice CPR techniques on dummies. This practical component aimed to enhance volunteers' confidence and competence in performing CPR, ensuring that they are better prepared to respond to real-life emergencies.
